Toledo Assembly Plant--Operational Understandings

Joint Objectives and Goals

- (7) The Company and the Union enter into this agreement with the joint realization that maximum utilization of human resources potential is vitally important to the objectives of the Company, the Union, and individual employees. A critical element of human resources development is the adoption of a participative style of operation. The participative style acknowledges the important contribution that can be made by soliciting input from employees regarding matters which directly affect them in their work environment. This operating style recognizes the need to continuously improve non-adversarial relationships, based on trust, respect and loyalty. In that regard, the parties pledge to resolve or adjust differences that affect their relationship in a manner which exhibits tolerance, patience, objectivity and avoids confrontation. The Company and Union recognize that a cooperative and participative work environment is essential to the success of the Chrysler, the organization, and the individual employee.
- (8) To that end, the Company and Union pledge to maintain a genuine and unreserved spirit of cooperation, with a common goal of enhancing the dignity and self-worth of all employees. The Company recognizes it must foster this relationship through a true team effort in cooperation with the Union. - (10) The Union agrees, regardless of what disturbances or emergencies may take place, during the life of this Agreement that they will provide sufficient competent Company employees so that full power plant, electrical/mechanical on the shift and power house mechanic will be on duty at all times to include the Skilled Tradesmen doing paint walk through.

SENIORITY

Seniority Lists

Rank on the seniority list shall not be affected by the age, sex, religion, race, marital status, sexual orientation or dependents of the employee.

- (14) The seniority list of the Company on the date of this agreement shows the names of all employees of the Company entitled to a ranking for seniority.
- (15) The management shall keep the seniority list for each department up to date at all times, and whenever the Steward shall raise a question of seniority, shall make the seniority list available for his inspection for the purpose of settling the question. The management will post in each department a corrected seniority list every thirty (30) days. The seniority ranking of employees will be determined by using the lowest last four (4) digits of the employee's social security number. In those instances where duplications exist, seniority will then be determined by proceeding to the fifth lowest number or until the lowest number is established.

- (16) Seniority is by Factory Seniority Group. The Company agreed that the present seniority lists as of the date of this Agreement are the master records of seniority. Separate master records of seniority lists shall be maintained for production, office, skilled trades, engineering and nurses' seniority groups.
- (17) Two copies of such lists will be given to the Union and will include the classifications of the employees on the list as of date of the list.
- (18) Temporary part-time employees may be offered full-time employment, determined by a first-in, first-out method.
- (19) In order to implement this agreement, the Company may hire temporary part-time employees for straight time, overtime or weekend work.

OVERTIME

Overtime Scheduling /Overtime Equalization

- (20) During the course of negotiations the parties invested significant time discussing TAC's work schedule. As a result, it was agreed that the current work schedule permits daily overtime scheduling of ten (10) hours per day, two (2) consecutive Saturdays while on the 40-50-60.
- (21) The following represents the Agreement reached to permit the Corporation to schedule reasonable overtime to achieve its production needs in a timely manner. Therefore, employees shall be required to work scheduled overtime in accordance with the provisions set forth below:
- (a) Overtime hours shall be equalized among employees on the same classification and performing like work on the same shift and in the same department (including holidays).
 - (b) All Daily overtime will be worked by the employee on the job.
 - (c) Daily overtime hours in excess of ten (10) shall be voluntary. When daily overtime work is required, Management will provide three (3) hour notice before the end of a regular 8 hour shift. When overtime work is scheduled for Saturday, Management will endeavor to give notice two (2) hours before the end of a regular 8 hour shift on Thursday of overtime work on Saturday and to give notice two (2) hours before the end of the shift on Friday of overtime work on Sunday. It is understood that notice of scheduled overtime will be given to the Union at the Executive Committee Room and by bulletin board postings to employees of the affected department. Failure to give such notice will relieve an employee of the obligation to work overtime. The Local Union and Plant Management shall provide for exceptions to such minimum notice requirements in emergencies or situations in which it is not practical or feasible for management to provide the agreed minimum notice (e.g., breakdowns, interruptions of electric or other essential services, delayed delivery of necessary parts of materials, or other such identifiable emergencies). If the Local Union and the Plant Management are unable to

reach agreement as hereinbefore set forth, they shall refer the matter to the International Union and Corporate Union Relations.

(d) When an employee has worked two consecutive Saturdays, the employee may be off the Third (3rd) Saturday provided:

1. The employee has not been absent on any day during the week proceeding such Saturday.
2. The employee notifies his supervisor before the end of his shift on (i) the preceding Monday or (ii) any later day of the week on which the employee is notified that he is scheduled to work Saturday.

(e) Overtime work on Sunday shall be voluntary.

(22) The Corporation may designate for a period of ninety (90) days any component operations in the plant as critical once during the term of the Agreement. Once those operations are designated as critical, overtime for such operation(s) will be required as scheduled. Management will give the Union fifteen (15) days advance notice of its intent to invoke this Agreement.

(23) The provisions of this Agreement which limit or restrict the right of the Corporation to require employees to work daily overtime or Saturdays shall be ineffective (a) beginning on a date two (2) additional weeks when supply or other problems interfere with the build-out, and (b) for the week it launches a new model and for three (3) weeks thereafter or until the line speed reaches scheduled production, whichever is later.

(24) Any right to decline daily overtime or Saturday work that this Agreement confers on any employee may be exercised only by each employee acting separately and individually, without collusion, conspiracy or agreement with, or the influence of, any other employee or employees or the Union or pursuant to any other concerted action or decision. No employee shall seek by any means to cause or influence any other employee to decline to work overtime. Violation by any employee of this Agreement subjecting him/her to discipline nullifies for one (1) month his right to decline overtime. The Corporation shall have the right to suspend for a period of two (2) weeks this Agreement that limits or restricts its right to require employees to work daily overtime or Saturdays, or that entitles employees to elect not to work daily overtime or on Saturdays, in the event employees collusively or concertedly refuse to report for overtime work that they have not declined as herein provided.

(25) The Corporation may suspend the provisions of this Agreement and require employees to work daily overtime or Saturdays if plant operations are interrupted by emergency situations, such as breakdown, government mandated work, power shortage, strike, fire, tornado, flood or acts of God, for a period of time necessary to overcome the emergencies.

(26) Whenever the Corporation launches a new car line or truck line at the Toledo Plant or assigns for assembly a car line or truck line that is new to the plant, the provisions of this Agreement shall be ineffective for a period of one (1) year beginning with the start of regular

production of such new vehicle. The Corporation will notify the Union with a paper copy of the effective start date. This Agreement shall also be ineffective for six (6) months following the installation and launch of a new press line on those operations affected by the new press line. The Union will be given fifteen (15) day's advance notice of management's intent to suspend this Agreement.

- (27) Whenever the Corporation adds or restores a production shift, the provisions of this Agreement shall be ineffective for a period of six (6) months thereafter.
- (28) There shall be no strike, picketing or other concerted activity with respect to any dispute arising out of this Agreement.
- (29) This Agreement shall not apply to employees working on what are normally classified as seven (7) day operations.
- (30) Daily overtime hours or Saturday or Sunday work that an employee declines or works pursuant to this Agreement shall be deemed "Compensated or Available Hours" within the meaning of the Supplemental Unemployment Benefit Plan.
- (31) If the International Union and the Corporation so agree, the terms of this Agreement may be suspended for a fixed period of time.

Overtime Equalization (Non-Skilled)

- (32) To assist in the equalization of overtime hours, the following shall apply to all equalization groups:
 - (a) Overtime shall be charged as pay hours worked. Example: One (1) hour at time and one-half shall be charged as 1.5 hours. One (1) hour at double time shall be charged as 2.0 hours.
 - (b) On acquiring seniority, an employee shall be charged with the number of hours charged to the employee in the group with the highest number of hours plus one (1) hour.

 - (e) An employee absent for any reason shall be charged the number of overtime hours he would have otherwise been scheduled to work.

- (f) An employee who is approved for work by the Medical Department, but with PQR medical restrictions which limit the type of regular work he can do, and there is no available work he can do, shall be charged the number of overtime hours he would have otherwise been scheduled to work.

- (h) An employee who accepts an overtime work assignment and fails to report due to an unexcused absence, shall be charged double on the overtime equalization.
- (i) Overtime equalization charts will be posted in a mutually agreed location in each department.
- (j) When practicable, management will endeavor to the best of its ability and consistent with the operation needs of the department, schedule the employee performing like work in the same classification the shift in the department with low overtime hours provided such employee has the ability to perform the available work.
- (k) When Saturday, Sunday or Holiday overtime is required and where a group of employees' hold the same classification on the same shift in the same department are regularly assigned to a like job or operation, the employee possessing the least number of hours in the equalization group will be afforded the opportunity to work the available overtime, provided such employee has the ability to perform such work.
- (l) The Overtime hours will be zeroed out on the second (2nd) pay period of each calendar year.
- (m) The company will make every effort to rotate all overtime opportunities with each shift in the department (i.e. holidays and weekends).

The Company and Union may agree to establish new or alter existing overtime equalization groups for good business reason if the need arises.

- (35) When employees are assigned to a shift in accordance with their shift preference, they shall be required to remain on that shift for six (6) months, seniority permitting.
- (36) When it is necessary to secure the service of employees with special qualifications or mechanical experience and there is no one with seniority in the department with the necessary qualifications the Company will offer by seniority plant wide work opportunity to those who can pass a proficiency/capability test.

Daily Overtime Posting

September XX, 2015

Mark Epley, Chairman
Jeep Unit, Local 12
Toledo, OH 43608

Dear Sir:

During 2015 negotiations, the parties discussed the problems resulting from daily overtime posting notification.

Consistent with those discussions and in conjunction with the change in the notice requirement, four (4) hours to three (3) hours, the parties agreed a statement of intent is necessary to avoid unnecessary disputes.

The language is intended to facilitate the Company's need to schedule overtime and at the same time prevent any abuse by assuring the posting will be for legitimate reasons only.

It is clearly understood the Company will not post for overtime unless it intends to work. The parties recognize circumstances may arise-which prevent the overtime from being worked and necessitate cancellation with short notice.

It is clearly understood when cancellation of overtime occurs for reasons not covered by this agreement. The affected employees who choose to stay will be required to participate in assigned activities.

It is also understood that the parties will discuss overtime plans as well as any problems arising from notification at the weekly Company/Union Leadership meeting. The Human Resource Manager and the Jeep Unit Chairman will meet with any member of management that abuses this process. If the abuse of this process continues, such as overtime being posted after a breakdown and later cancelled. The overtime will be afforded to the employees.

Lunch Period Change - Emergencies

September XX, 2015

Mark Epley, Chairman
Jeep Unit, Local 12
Toledo, OH 43608

Dear Sir:

During these negotiations, the parties discussed the possibility of a change in the lunch period if an emergency or breakdown should occur.

The parties agree that a common sense approach will be adopted for each separate emergency or breakdown and that the Union will be notified in advance by one-half hour of the proposed time. There may be extenuating circumstances that arise that precludes the thirty (30) minute notice given. In this event the decision will be made between the Chairman of the Union or designee and the Human Resources Manager or designee.

In any event, the parties will not move the lunch period to more than one half hour prior to or one half hour after the normal scheduled time. Management assured the Union that in the event the lunch hour is moved, arrangements will be made with the canteen vendor to ensure comparable food service will be provided.

In the event that the union feels this practice is being abused the matter will be taken up with the UAW Chairman and the Human Resources Manager.

Sincerely,
Ed Schaeffer

Outside Contractor Property

September XX, 2015

Mark Epley, Chairman
Jeep Unit – Local 12
Toledo, Ohio 43608

Dear Sir:

During the course of these negotiations, the Union expressed concern pertaining to contractor equipment, trailers/cribs and vehicles remaining on-site following the completion of a contract or project. In particular, the Union believes outside contractor property left on sight increases or perpetuates the amount of work being performed by said outside parties which infringes on work customarily performed by Toledo Assembly Plant Skilled Trades personnel.

Outside contractors will remove their equipment and will demobilize any work stations from the premises upon completion of any contract(s). Specific instances of outside contractors performing work which the Union believes to be contrary to contractual requirements will be referred to the Union Relations Supervisor for expeditious resolution.

Sincerely,
Mr. Ed Schaeffer

Specialized Training

Mark Epley, Chairman
Jeep Unit – UAW Local 12
Toledo, Ohio

September XX, 2015

Dear Sir:

During the course of negotiations, the Union expressed interest in training for Skilled Trades employees on specialized work assignments currently performed by outside contractors. The parties discussed this at length within the framework of the necessity to remain competitive in a global automotive industry. In the past, many challenges arose as a result of pre-existing barriers such as overtime, manpower movement, etc., that prevented the Company from fully utilizing its Skilled Trades workforce. The Company and the Union were in accord that the lack of flexibility threatened its ability to be truly competitive.

The common goal of the Company and the Union is to become a world-class manufacturer and the benchmark of the industry. Intense foreign and domestic pressures have forced both parties to find new ways of doing business. To that end, a commitment was made to explore opportunities to better utilize its existing workforce and expand upon the current knowledge base. The parties agreed to finalize a business case for specialized training which provides for creative ways to utilize those skills to enhance the business enterprise. Specialized training and improved processes to better utilize our workforce also corresponds to the goal of migration toward Skilled Trades teams.

To maintain operating efficiencies while facilitating sophisticated training, new ways of assigning work have to be adopted. In order to enhance cooperative efforts and to create a framework promoting teamwork and non-adversarial communication while sustaining an environment that promotes constructive problem solving, the following guidelines were agreed to as a result of the discussions.

The parties acknowledge the necessity to maintain and continue to develop certain specialized skill sets such as vibration analysis, infrared analysis, facility walkthrough, etc., in addition to developing new types of specialized skill sets such as fiber optics installation (all communication wires) and torque gun systems.

Employees who accept work assignments that require specialized training that was mutually agreed upon by the Company and Union will be retained in their current work assignment for eighteen (18) months after completing and passing the specialized training and OJT. The specialized training will be taken within the first six (6) months of accepting the bid unless circumstance arise that prevent the training from occurring and is beyond the control of management. Training completed within six (6) months and if the employee has held the job for eighteen (18) months he/she holds the position only if seniority permits (otherwise subject to shift bump rules). Additionally, employee is subject to layoff in line with seniority at any time.

Employees who possess specialized skills and who accept new work assignments will be retained in their current work assignment until a replacement has completed the designated training regimen (but not for a period greater than thirty (30) working days of actual training) and proficient in the necessary subject matter.

Employees who possess specialized skills, and who are currently on the specialized job, may be scheduled to any shift out of line of seniority. They may work overtime regardless of overtime rotation hours as well as assigned to other forms of alternate work schedules

Management will determine the required course offerings and OJT requirements, with union approval to qualify for the position. Specialized training for a particular bid must be completed within six (6) months of the employee taking the bid job. Mutually agreed upon On-the-Job Training will be considered to be Specialized Training in conjunction with the required outside training.

If the Specialized Training is not completed within six (6) months of taking the bid, barring circumstances beyond the control of management and recognized by the union, then the bid resorts back to a regular bid status and all specialized training status no longer applies to said employee. In point of fact, if any employee in a Specialized Training Job has the option to bid out, then that employee holds the job only if seniority permits.

Thus after completion of Specialized Training **plus** eighteen (18) months of Specialized Work, the employee may bid off, or be bumped off the Specialized Training Job. In any event, the employee will be able to bid off or be bumped after twenty four (24) months of moving into the job.

Upon ratification, all specialized bids will be jointly reviewed to appraise any required training updates. An employee who wins a Specialized Training Bid will be given an orientation meeting that will familiarize the employee with the job requirements and shift requirements so that the employee can make an informed decision to take the bid or reject the bid

Sincerely,
Mr. Ed Schaeffer
Human Resources Manager

Overtime Canvass

September 23, 2003

Mr. Nick Vuich
Chairman
Jeep Unit - UAW Local 12
Toledo, Ohio

Dear Sir:

The parties agree that there is a need to monitor and react to acceptance rates for weekend overtime in Skilled Trades. To that end, the parties had lengthy discussions regarding the impact on operations due to a lack of manpower during weekend overtime in Skilled Trades. In order to ensure a full crew is available for each shift, the procedure must reflect an efficient and sound process that enables the Company and Union to timely schedule, and where necessary, react to shortfalls. Additionally, the Union expressed concerns regarding shift preference on overtime.

Accordingly, within three (3) months upon ratification of the Agreement, the parties commit to review the overtime canvass procedure and to accordingly post plant wide. When reviewing the above, it's necessary to ensure the administration of the process is aligned with the governing guidelines. The procedure will be periodically reviewed and modified, if necessary, to address shortfalls and to implement corrective measures that maintain operational efficiencies within each department.

Sincerely,
Thomas G. Maxon
Senior Manager - Human Resources

Skilled Trades Saturday Overtime Opt-Out Letter

September XX, 2015

Mark Epley, Chairman
Jeep Unit – UAW Local 12
Toledo, Ohio 43608

Dear Sir:

The parties recognize the need to stay globally competitive and to maintain the momentum gained from the WCM principles applied to this complex. To that end, there will be times in which weekend overtime work, due to weekend production, will be required. As a result, the subject of opting out of said overtime was discussed at length.

During current market conditions, while weekend production is running equal to or less than one (1) time per month, the employee whose work content is affected by the production will be required to work that overtime in order to maintain the continuity of operations.

If, however, such a time occurs that weekend production occurs on a more frequent basis, the parties agree to both returns to the established guidelines in Section 21 (d) of the Local Agreement.

Sincerely,
Ed Schaeffer
Manager Human Resources

Supplemental Office, Clerical and Engineering Workforce

September XX, 2015

Mr. Mark Garrett
O/C/E Chairman
Jeep Unit – UAW Local 12
Toledo, Ohio

Dear Sir:

The parties had lengthy discussions regarding the Supplemental Engineering Workforce outlined in the letter dated September XX, 2015. If it becomes necessary for the Company to fill a permanent Engineering opening, temporary Engineers will be given the first opportunity after fulfilling the requirements in Section 6 of the Office/Clerical and Technical Engineering Supplement. When a temporary Engineer becomes permanent, his seniority date will be his date of entry into the Engineering group as a temporary Engineer. The parties have discussed in some cases a temporary Engineer may be utilized without all the requirements needed, if they become permanent his/her seniority date would not begin until they have fulfilled all requirements needed. Once their requirements are met that would determine their seniority date in the Engineering Group.

- If a temporary engineer occupies a job for more than 120 days, the job will be reviewed by Labor Relations and the O/C/E Chairman to determine if the job should be made permanent.

Sincerely,
Ed Schaeffer
Human Resources Manager

Jeep Unit - UAW Local 12

Dear Sir:

During the course of the 2015 negotiations, the parties discussed the circumstances that will require scheduling probationary engineering employees prior to seniority engineers for work during plant shutdown periods and holidays.

As a result, the Company will endeavor to utilize seniority employees within the same classification and department prior to probationary engineering employees, except in cases in which this would cause an adverse impact on efficiency, such as the continuance and/or completion of a project.

Suppliers in the Plant

September XX, 2015

Mr. Mark Garrett
O/C/E Chairman
Jeep Unit – UAW Local 12
Toledo, Ohio

Dear Sir:

During these negotiations, the Union expressed concern for the security of its membership and frustration over certain communication issues as well as complaints over the job assignments of non-Toledo Assembly personnel while in the plant.

The Company agrees that early involvement in special projects is key to a smooth transition from concept, to build, to launch and sustainment.

In an effort to address these issues and to utilize the Bargaining Unit Employee's considerable expertise, the Bargaining Unit Employee's will be utilized as early in the process as possible.

It is further understood that when supplier or non-Bargaining Unit personnel perform tasks on the plant floor related to their product, they will work in liaison with Bargaining Unit Employee's, including advance communication, when the work in question has historically been done by represented employees. The intent of this advance communication with an appropriate represented Employee is to allow for the clarification of roles and responsibilities and to prevent unannounced entry into the plant by supplier employees.

All outside suppliers will report to security when entering the premises a log-in report will be kept. This report will be made available for the OCE Chairperson and to Skilled Trades Committeeman the following Monday as requested. Any discrepancy with this procedure will be brought to HR Manager.

In addition, communication will be enhanced through department meetings with the O/C/ E Chairperson and Skilled Trades Committeeman, whereby the parties will share upcoming project information, estimated duration, and forecasted disciplines.

The parties recognize that the future success of Toledo Assembly, its employees and the members of Local 12-Jeep Unit depend upon the cooperative effort of all concerned in building a world-class vehicle.

Sincerely,
Ed Schaeffer
Human Resources Manager

September XX, 2015

Mr. Mark Garrett
O/C/E Chairman
Jeep Union-UAW Local 12
Toledo, OH

Dear Sir:

During these negotiations the Union raised concerns that anyone in the O/C/E Group be allowed to maintain and exercise their dual seniority within the Toledo Assembly Facility. Once an employee bids to any other seniority group the employee shall maintain his/her dual seniority. If at any time an employee chooses to bid out of the O/C/E group he/she will have an opportunity to return to the O/C/E group when an open job comes available. Once the opening occurs the employment office will contact the employee of the opportunity. If the employee turns down the open position, the dual seniority date for the O/C/E group will be voided.
